(from CASI/QLT)

The ColorTranz Story

You Can Make Heat Transfer Ready Pendants using your SONY® Printer and your heat press.

Wow! When we originally found these pendants in December, we moved like a bolt of lightning. We visited a CASI/QLT customer in a major Northeastern mall who had customers lining up to pay \$39.95 each for these high quality custom color photo transferred Dog Tag pendants. Each one only took 2 minutes to make.

We were impressed and got them in as fast as we could. We aired in supplies and were ready to ship immediately! Our customers *and their customers LOVED THEM!*

The ColorTranz success continues to grow! Wildly popular at Valentine's Day and more people are interested every day. **STARTER PACKS ARE AVAILABLE!** Order some today!
